3. Items of interest from the DDS Staff Meeting:

a. Anti-War Demonstrations Mr. Osborn gave a short talk on planned antiwar demonstrations in the Washington area, which are presently scheduled to begin on 24 April 1971. These demonstrations will be jointly sponsored by the National Peace Action Coalition and the Peoples Coalition for Peace and Justice, and they plan to demonstrate at all Government agencies, including CIA. Mr. Coffey noted that a Headquarters Notice on the subject will be distributed 20 April. Mr. Osborn noted that the Security Command Center on the ground floor of the Headquarters building will be open at midnight, 23 April and will continue until the demonstrations are ended. He suggested that it would be a good idea to have a full tank of gas during this period, and particularly on 3 May, since delays caused by the demonstration could be lengthy.

b. DCI Speech - 14 April 1971 Mr. Coffey stated that the Director's speech before the National Association of Newspaper Editors had been printed in a pamphlet form. This was a tremendous effort on the part of Printing Services Division since the text was received Friday afternoon and the pamphlet was ready first thing Monday morning. Copies of the speech

are available to those offices which have a need for them. The film of the speech was not complete, but attempt will be made to fill in the missing parts from tapes of the speech, and it may be possible to show the film in the auditorium at some future date.

d. Improved UBLIC Coverage [redacted] 9 April 1971 has just been distributed. This bulletin details some changes we earlier discussed with you having to do with coverage for retirees. We also have reported Harry Fisher's concern that many younger people have not seen fit to add even a limited amount of coverage under this plan to their estate planning. We have all seen how having or overlooking this bargain in term insurance can make the difference for those remaining between maintenance of a decent standard of living or the creation of substantial hardship.

e. Shipment of Foreign POV's Bob Tegethoff if INR/State telephoned this morning to say that the proposed change to 6 FAM 165.2 to require possession and use of a foreign made POV for 90 days to qualify for shipment from overseas to the U.S. has been approved for publication. It is going to the printer today and will probably be mailed on Monday and will bear an effective date of 1 July 1971.
